STOMACHS ON STILTS.

The man who puts on stilts does not increase his actual stature. He only feels taller. Stimulants are the stilts of the stomach. They make a man feel better for the time being, but he feels a great deal worse for them afterward.

The need of the man whose stomach is "weak" is not stimulation but strength. Dr. Pierce's Golden Medical Discovery perfectly answers that need. It contains no alcohol or whisky. It cures the weak, foul stomach with its attendant bad smelling breath, coated tongue, bad taste, poor appetite and kindred symptoms.

"In the year 1899 I had an attack of indigestion and got so bad that my home doctors said he could not do me any good," writes Mr. G. Trent, of Gordonville, Texas. "I wrote to you and you advised me to use Dr. Pierce's Golden Medical Discovery, so I bought six bottles, and when I commenced using it I was so weak could hardly walk about the house. By the time I had used one bottle my stomach and bowels commenced to heal. There were strips of the lining of my stomach or bowels (I don't know which) as large as a man's two fingers passed and I had a good deal of misery in my stomach and bowels, and also in the rectum especially. I could not eat anything without having much distress afterward, but by the time I had taken eight bottles of the 'Golden Medical Discovery' I was sound and well, and could eat anything I pleased without suffering in the least. Could also do as much work in a day as I ever could. I have not suffered from the trouble since, and it was four years ago that I was so sick."

The sole motive for substitution is to permit the dealer to make a little more profit. He gains; you lose. Accept no substitute for "Golden Medical Discovery."

Constipation causes and aggravates many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c. in stamps to The Herpicide Co., Detroit, Mich.

Revenue Frauds.

At Greensboro, N. C., Saturday evening the grand jury of the special term of the federal court returned indictments in open court in twenty-eight true bills. Included in these bills in one case were forty-five federal officials and distillers for conspiracy to defraud the government. In other bills officers are charged with perjury, forgery, bribery, demanding bribes, false reports of captured or destroyed stills, false vouchers for expenses and false returns of whisky output of licensed distilleries. Some of the officers indicted have been recently removed or were allowed to resign. Among the deputy collectors indicted are prominent officials, republican politicians in their respective communities.

Against these officials there are many charges in each bill, besides the omnibus conspiracy bill, containing twelve separate counts. J. H. Smith, marked on bill as "Special Agent of Revenue Agent W. H. Chapman," has thirty distinct cases charged, eighteen for as many distilleries falsely reported seized or destroyed and twelve for conspiracy with as many different distillers to defraud the government out of revenue.

The banner defendant is ex-Deputy Collector R. N. Harden, said to be Congressman Blackburn's candidate for the marshalship of the district upon expiration of the present marshal's second term. There are forty-nine cases against him, embracing almost every offense known to the United States revenue laws. Of the ninety parties indicted, all were distillers or bar-keepers except eleven deputy collectors now or recently in office. Without exception these have been operating in Wilkes county.

It is predicted that at the next term of the court, the first Monday in October, that as many more bills will be found by that grand jury, but against an entirely different set of men, officials and others.

Fell from a Balloon.

Thousands of people in all parts of Baltimore, besides the crowds at the carnival of the Trades Alliance at Highlandtown, Saturday evening saw John August, the aeronant and gymnast, who has been making parachute drops daily from a big balloon, fall from his trapeze bar at a heigth of nearly two thousand feet. He fell in a yard a mile away from the point of ascension. From the carnival grounds the show manager and others saw that the gymnast, who in the ascent hung feet downward from the bar, was weakening as the balloon shot upward. They saw him try to double and draw himself up on the bar, but he could only catch it with one hand. Finally, after frantic clutching at the air with one hand, he raised himself, got both hands around the bar, tried once more to get over it, raised his body till the waist line touched the bar, and then let go.

After hurtling down with terrific force, August landed in the center of the back yard of Mr. August J. Weis, breaking every bone in his body, depressing the ground to a depth of half a foot, and, when picked up, was a mass of lifeless, broken and bleeding flesh.

Thousands of persons who were watching the ascension in East Baltimore, Canton and Highlandtown, and from the tall office buildings of the city, witnessed the blood-curdling sight, and all that section of the city and county was stirred to the uttermost of feeling. No sooner had the doomed man started to slip from the security of his trapeze on his downward flight than a general rush was made for the spot of his fall, and the crowd which gathered in the neighborhood of the Weis home numbered many thousands.

August's home was in Lancaster, Penn. He was twenty-five years old.

Attempted Murder and Suicide.

Because his sixteen-year-old sweetheart persisted in her refusal to marry him and had ordered him to cease his attention, Lee Weddle, seventeen years of age, of Frederick, Md., is dead by his own hand, the sweetheart, Nellie Eichelberger, daughter of George C. Eichelberger, of Catoctin Furnace, is suffering from two pistol shot wounds that may prove fatal, and her friend and companion, Maud Davis, has a bullet wound through her arm. The tragedy took place Saturday night. Miss Eichelberger, with Miss Maud Davis and Miss Annie Fitz, was shopping, and had reached a public square when Weddle approached and took Miss Eichelberger to task for sending him his letter of dismissal. Upon reiterating the sentiments she had expressed in the letter, Weddle said: "If you do not marry me, you will never marry another man," and, drawing a revolver, he fired two shots at her. Both took effect in her back as she had started to run from him, the bullets striking the shoulder blades. One bullet passed through the arm of Miss Davis, inflicting an ugly flesh wound before it struck its victim. When Weddle saw Miss Eichelberger swoon and fall to the ground, he placed the weapon against his breast and sent two bullets into his heart, falling over dead on the body of his unconscious victim.

Incredible Brutality

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye." Good for burns and ulcers too. Only 25c at E. S. Leadbeater and Sons, drug store.

Germany's Meat Supply.

The price of cattle on the foot in Berlin yesterday was 14½ cents a pound avoirdupois, and live hogs 14 cents a pound.

It is these prices that caused the master butchers of Germany to petition the government yesterday to admit live animals free of duty. The butchers are joined in the protest by the municipal governments of 50 to 60 cities, among them being most of the manufacturing centers, where it is alleged industry is most injured by the increased cost of existence in Germany.

The agitation against the meat exclusion act has now gone on for two years with increasing force as the prices of meat have gone up slowly and steadily regardless of the lessening of consumption per head and the country's population increasing 750,000 annually. The farmers so far have been unable to correspondingly increase the number of food animals raised. They affirm through the agriculture conventions, landlord's associations and the agrarian party press that Germany can and will, and in fact does, produce a sufficiency of meat; that encouragement of the farmers is necessary to a symmetrical economic system and that to admit animals and meat free of duty now would ruin the farmers.

THREE JURORS CURED

Of Cholera Morbus with One Small Bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Mr. G. W. Fowler of Hightower, Ala., relates an experience he had while serving on a petit jury in a murder case at Edwardsville, county seat of Clebourne county, Alabama. He says: "While there I ate some fresh meat and some souse meat and it gave me cholera morbus in a very severe form. I was never more sick in my life and sent to the drug store for a certain cholera mixture, but the druggist sent me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy instead, saying that he had what I sent for, but that this medicine was so much better he would rather send it to me in the fix I was in. I took one dose of it and was better in five minutes. The second dose cured me entirely. Two fellow jurors were afflicted in the same manner and one twenty-five cent bottle cured the three of us." Alexandria Gazette
SIC SEMPER TYRANNIS
AND VIRGINIA ADVERTISER

MONDAY EVENING, SEP. 11, 1905.

THE insurance investigation by a committee of the New York legislature, which was begun in New York city last Wednesday, has already brought to light a system of syndicate deals in the Mutual Life and other companies similar to those already disclosed in the Equitable. Officials of the New York Life, Mutual, Mutual Reserve, Mutual Benefit and the Metropolitan have been put on the stand and closely interrogated as to their methods of conducting business. First it was brought out that in the elections very few votes are cast in person and that most of those cast were proxies held by the president of each of the companies so as to insure the election of the ticket agreed upon by the Board of Directors. Treasurer Cromwell, of the Mutual Life, admitted that he and other officers had participated in underwriting syndicates which sold bonds to that institution. He thought there was no impropriety in these transactions. Mr. Cromwell, on being asked to explain what a syndicate is, said that it was a plan organized by bankers to invite large investors to come in and take a portion of the underwriting because certain bonds can be bought at a lower price if taken in large blocks. The syndicate merely places the matter in the hands of one or two concerns and limits the time and method of selling and the giving of security. The difference between what the syndicate managers have to pay and what they realize on the public sale determines the profit. The investigation reveals the interesting fact that clerks, messengers and office boys, some of whom make as much as $10 to $15 a week, often sign notes for millions. Under such circumstances, says the New York Tribune, the haughty airs of the office boy are readily explainable.

A WIDELY published report of dissensions between minority and majority stockholders in the Orinoco Company, which claims the famous Manoa concession in Venezuela, has brought to public attention the prominent part played by men connected with this company in the appointment of Francis B. Loomis to the Venezuelan mission in 1897. Correspondence between James A. Radcliff, of Brooklyn, and Charles S. Kurtz, then chairman of the Ohio republican committee, and Mr. Loomis is thus brought to light, disclosing an understanding as to the exploitation of Venezuelan concessions. The report infers that the Orinoco interests sought in Mr. Loomis a minister who would be friendly to their plans. Mr. Loomis issued a statement denying in a general way all improper connection with the company or knowledge of its affairs. Mr. Radcliffe, however, contradicts Loomis in part and tells how papers containing the history of the concession and the company's plans were handed to Loomis at the time of his departure for Venezuela. The Manoa concession comprises 11,000,000 acres, which are bounded for a distance of 125 miles by the navigable river Orinoco. The acts of Mr. Loomis while minister to Venezuela should preclude the very idea of his being given another mission, though the announcement that he will be is made almost daily.

IT IS said that the sentiment of American business concerns in Berlin and Germany generally who deal in machinery, electric supplies, and all classes of manufactured goods, as well as raw products, food products, &c., is unanimous in considering the situation grave in regard to the probability of a commercial trade or tariff war between Germany and the United States. The American Commercial Association, in Brussels, has endeavored in the most vigorous way to impress the Congressmen who have recently visited that country with the absolute necessity of doing something to bring about reciprocity trade relations between Germany and the United States at the forthcoming session of Congress. The tariff war was begun by this country and when other nations retaliate it should cause no surprise.

THERE is a rumor in circulation that Thomas W. Lawson, of Boston, might possibly be asked by the Armstrong insurance investigating committee to appear before that body in New York and tell what he knows of insurance affairs. For many months Mr. Lawson has been keeping up a running attack on the methods of life insurance companies, and has had several passages with Mr. McCall, carefully neglecting to be specific at the points where definitness of detail was essential. If the Armstrong committee gets him in the witness chair it will put questions to him and he will have to answer them specifically or disclose the fact that he is dodging. There would be interest in the investigation if Mr. Lawson be summoned as a witness.

A BERLIN dispatch to the Paris Temps says President Roosevelt has sent a letter to Baron von Sternburg, the German Ambassador at Washington, declining the German proposals relative to a commercial treaty. The President says Germany seeks advantages which cannot be conceded, and he does not see that any object can be gained by the conclusion of the treaty. If this be true the American people will have only the republican party to blame should Germany put a high tariff upon American goods and thus exclude them from the market of that country.

THE internal revenue department has unearthed extensive revenue frauds in several districts of North Carolina. Collusion is charged between the distillers and the storekeepers and gaugees by which the government has been defrauded to the extent of many thousand dollars. As has frequently been stated in these columns every department of the government seems to be reeking with fraud.

THE WHOLESALE price of meats has been advanced by the western packers. This has caused a corresponding advance in the retail prices, and the butchers are kept busy explaining to their customers that the packers are responsible. The consumers are completely at the mercy of the meat trusts and there will be no relief so long as the present tariff laws remain in force.

From Washington.

An official report from U. S. Minister Gummere at Tangier, received at the State Department this afternoon confirms the newspaper accounts of the unsettled condition of affairs in Morocco and gives a hint of the real gravity of the situation. Minister Gummere cables: "Tribes are fighting in the immediate neighborhood of Tangier—the Anghera tribe versus Raisouli' tribe. The government is undecided in its position and the situation is entirely uncomfortable." Mr. Gummere, it is learned, went out into the country to escape the heat of Tangier and has been occupying the same house from which Ion Perdecaris was captured something over a year ago.

There has been some serious doubt as to whether Foreman Ricketts can legally fill the place of Public Printer Palmer, except by permanent appointment, but it was decided today that Mr. Ricketts is qualified to temporarily carry on the work and he filed a bond of $100,000.

United States Consul Gracey at Nanking, China, reports to the State Department that he has had an interesting conversation with Mr. Lao Tsung-yao, Chief Commissioner of the Bureau of Foreign Affairs of the Liangkiang provinces. Mr. Lao stated that he had several discussions with the Viceroy regarding the ultimate fate of Manchuria should this territory be returned to China on the termination of the present trouble. Mr. Lao has suggested the advisability of placing Manchuria in the position of an experimental ground. He recognizes the effort toward reform which is being so strenously made by the government, and has suggested and discussed with the Viceroy the use of Manchuria as the testing grounds for these reforms. These would include the opening of the country to foreign commerce, granting mining and railway concessions, reforming the judicial and monetary system, abolition of the use of torture in the courts, etc. The Viceroy was, so the Consul was told, much impressed with this idea and will probably memoralize the throne regarding it.

Under today's date from Nagasaki Col. Clarence R. Edwards cables the bureau of insular affairs that Secretary Taft and his party will sail tomorrow for Kobe, where they will stay two days. Mr. M. B. Harlow, president of the Business Men's League, of Alexandria, was in the city today and called upon Commissioner of Internal Revenue Yerkes to protest against the removal of the revenue office in Alexandria to Abingdon. He gave most forcible reasons in favor of Alexandria, but Congressman Slemp wishes the office in his district and his wishes may prevail.

Four Persons Drowned.

Four persons were drowned in the Cocheco river at Dover, N. H., yesterday, as the result of two accidents. In each case one of the victims met death in trying to save another. As the schooner Sadie A. Kimball was passing Dover Point house the main boom struck Thomas Keenan, a seaman, and knocked him overboard. A boat was hastily lowered, and George Jones, another seaman, was preparing to go to the rescue, when he lost his balance and fell from the railing, striking his head on the small boat. Jones fell into the river and sank instantly. Before another member of the crew could reach Keenan the latter, too, had disappeared. Edward Durkin lost his life in trying to save his little son, who fell out of a rowboat. He dived for the child, but was unable to reach him, and exhausted by his efforts, sank. His two other children, who were in the boat, were saved.

The mystery which for six months enshrouded the life of Miss Penniall, the mission-worker and Bible-reader, of Greenwich, England, is a mystery no longer. She died at Maidstone on July 19 last, and was buried two days later. Her baby girl Phoebe—named after her mother—is alive in Maidstone. She is being well cared for by her father, whose name is given as Stanley. There in a sentence lies the true cause of Miss Penniall's disappearance from her friends in Greenwich and Deptford.

Sysonby was held at 1 to 6, and galloped his field into the ground in the first mile and a quarter. His time for the distance, two and a quarter miles, was 3:54 flat, which is but two-fifths of a second slower than the track record, made by Igniter in 1903. By the victory of Sysonby the winnings this year of the James R. Keene stable amount to a little over $211,000, a figure which has seldom been reached by any one stable in one year of racing.

The shooting is alleged to have been done by John F. Beach, architect inspector, who is under arrest in Washington charged with the affair. Both men were employed on work at the new barracks, Mr. Gichner, being a sheetiron and cornice contractor. Beach, it is said, fired five shots at Gichner, three of the bullets taking effect One of the bullets struck just over the heart, one passed through the spinal cord and the other went through the liver. The shooting followed trouble between Beach and Gichner about some work. It is thought that Gichner will recover.

Vice President on Prayer.

Vice President Fairbanks, while sightseeing at Valley Forge yesterday with Congressman Butler and Prof. Phillips, with whom he came over in an automobile from West Chester, on an invitation by Rev. Herbert Burk, made an address in Washington Memorial Episcopal Church. He took for his theme the value of prayer, and pointed to the recognition of its efficacy by Washington, Lincoln and by McKinley during the wars of their time. He said that this is distinctively a Christian nation and that for this reason it is appropriate that a memorial chapel should be erected on this sacred spot. His remarks, while impromptu, were replete with patriotic feeling. It was the Vice President's first visit to the historic camp ground.

New York Stock Market.

New York, Sep. 11.—The tone at the opening of the stock market was nervous and uneasy. With the market sensitive to bear news, the lamentable accident on the Manhattan elevated, while not in itself a market factor, had an influence on trading. The room was full of selling orders, a good part of them being liquidation of long speculative accounts. During the first hour prices generally moved toward a lower range. Room traders in the last few minutes have been moderate buyers on an idea that the government crop report, to be published at noon, will cause a material rally.

Notification of a mass meeting to be held in the Capitol square in Richmond next Saturday night has been issued by William L. Royall, chairman of the committee of fifty citizens which is busy "purifying" politics in Richmond. Mr. Royall will make an address and offer a resolution calling on the city electoral board to resign. It is believed that but few will hear him.

Friends of George E. Bowden, of Norfolk, member of the republican national committee from Virginia, are inclined to pooh pooh the stories that a systematic effort is being made by the Slemp faction to oust Mr. Bowden, not only from party power, but from his office of clerk of the United States District Court. The Bowdenites and Slempites are at war, however, and the end of the contest is not yet.

C. P. Chittenden, who fired twice with a shotgun at his young wife a few days ago in Richmond missing her both times, was on Saturday fined $50 and put under bonds of $1,000 for twelve months. The Commonwealth's attorney took the ground that the man could not have been trying to kill his wife, for no one could have been such a poor shot. Mrs. Chittenden, who was a witness, insisted that he tried to kill her.

The plant of the Wright-Caesar Tobacco Company, on Twenty-fifth street, between Main and Franklin streets, Richmond, was destroyed by fire Saturday, the loss amounting to about $21,000, partially covered by insurance. The explosion of a gasoline tank in front of the building, caused by the flames, and the disarrangement of the telegraph wires made the work of the fire-fighters perilous, but no one was injured. The owners are Philadelphia people. The loss will be covered by insurance.

Britt Defeated.

The 45-round fight Saturday afternoon at Colma, San Francisco, between Jimmy Britt, of San Francisco, lightweight champion of the world, and Battling Nelson, of Chicago, ended in the first quarter of the eighteenth round, with a clean knockout for Nelson. Up to that time the fight had looked to be entirely in Britt's favor, as he outclassed Nelson entirely in boxing both at long range and short. Nelson started in from the beginning to make it a slugging match and he carried this out consistently to the end. In nearly all the rounds, except the eighth and ninth, Britt had all the advantage of the boxing, landing five blows to Nelson's one. A few blows, however, that Nelson got in in several rounds were delivered with a great deal of power. It was evident that Britt's strength was sapped by these stiff punches to the jaw and body, while Britt's blows, although better gauged and far more numerous, did not seem to be able to feaze the Dane. Although he was badly punished early in the game, around the nose and mouth, he still came up fresh after every round.

It was the success of a strong, enduring fighter against a clever, cool boxer. From the first of the fight until Referee Graney finished the count of ten seconds, Nelson forced the fighting.

Nelson's share of the receipts was $18,841 and Britt's $12,740. In addition to this each receive $5,000 for the picture privileges. Britt says the reason he lost the fight was because he fought the Dane the same way the Dane fought him and that had he fought him as he usually fights he would have won.

Elevated Railway Car Plunges Into the Street.

New York, Sept. 11.—As as result of one of the cars composing a train on the Ninth Avenue Elevated Railroad plunging into the street at Ninth Avenue and 53d street at 7:30 o'clock this morning, ten persons are dead, and the number of injured will, it is believed, total 25. The train was bound down town and every car was packed with people—men, women, boys and girls—going to work. The train was delayed at the station at 116th street, and Eight avenue for several minutes and when it finally got started the motorman tried to make up the time that had been lost. As the train approached Fifty-third street, where the Sixth Avenue Elevated Railroad trains are switched off from Ninth avenue and sent through Fifty-third street to Sixth Avenue, the motorman thinking that the switch was properly set for him, did not slow the speed of his train Cars No. 1136 and 1742, the first cars of the train, went around the curve into 53d street, and the switchman, seeing his mistake, set the switch for a Ninth avenue train. The second car which was just about to cross the switch, was derailed and after bumping over the ties for about 20 feet, crashed through the railing and plunged into the street below. In its descent the car struck the front windows of J. F. Jones's drugstore at the corner, wrecking it completely. Fortunately the coupling connecting the third car with these behind it broke, and the fourth and fifth cars remained on the track. As the car left the track men and women began to scream and attempted to force their way through the windows and doors but in an instant, they found themselves being carried through the air and finally landed with a crash in the street. Persons who were in the vicinity took in the situation at a glance and hurried calls were sent to the police station for the reserves and to all the hospital ambulances and surgeons. Coroner Scholer has ordered the arrest of the motorman, switchman, and conductor. The latter, John J. Johnson has been arrested and the police are searching for Paul Kelly, the motorman, and C. T. Jackson, the swichman.

The scenes of horror about the wreck can be imagined, but not described. The great crowds of people who had been attracted to the spot pressed as close as possible to get a glimpse at the damaged car. Lying about the car were the injured, with here and there a body whose very quietness told the story that it would never move again.

The dead and injured were soon removed from the scene, however. The by-standers then turned their attention to the wrecked cars. The second car, or the shell that was left of it, hung from the elevated structure, the nose resting on the ground. The car listed at an angle of about 90 degrees. The entire bottom had been ripped out, as the whole floor had been jarred out by the shock, bringing with it the running gear and the heavy trucks. These had assisted with deadly force in the work of destruction. As the car went off the structure the passengers had been hurled in a pile at the bottom. On them the heavy steel wheels and running gear descended, toboggan fashion, crushing out the lives of some and injuring all they fell upon. When the people had all been removed workmen cut away the end of the car which hung upon the elevated structure and it fell to the ground, completing the wreck of the drug store into which it had crashed in its decent.

Letter to Geo. Patterson.

Alexandria, Va.

Dear Sir. The usual way to buy paint is to take the lowest price by the gallon. Mistake; the buyer loses by it; how much? Depends on the paint; it is so much a gallon, or so much a year. How much a gallon or year, do you think? As much perhaps, as the total price of the paint, It may take twice the number of gallons.

N Avery, Delhi, N. Y., owns two houses, both exactly alike. He painted one with Devoe and one with another paint. Devoe 6 gallons; the other 12.

Go by the name: Devoe. There's nothing cheaper, Go by the price; there's nothing dearer, except not painting at all. Poor paint is better than none.

What does it cost not to paint at all? Can't figure it out exactly; say a tenth of the building a year besides looks.

What is poor paint worth, then? Don't know and don't care, you don't want it. Go by the name.

Yours truly,

Report of Keep Commission.

President Roosevelt yesterday made public the report of the Keep Commission on the recent investigation of affairs in the government printing Office at Washington. The inquiry was made by special direction of the President on account of a protest which he had received from officials of the Mergenthaler Typesetting Machine Company against the award of a contract by Public Printer Frank W. Palmer to the Lanston Monotype Company for 72 machines of its make.

By order of the President, the contract with the Lanston Company was held up until an investigation could be made with the view of ascertaining whether the charges of favoritism and corruption in the letting of the contract were substantially founded.

The President decided, after an examination of the Keep report, that the contract for the Lanston machines should stand. The Keep Commission reported that if the contract could be set aside "such a course would be desirable," although the commission states expressly that "no corrupt consideration, payment or promise passed from the Lanston Monotype Company to the public printer or to any person in the government service."

It was developed by the investigation, however, that two important assistants of the public printer were indirectly interested in the Lanston Company, "their wives being stockholders therein." The commission shows that a fair and impartial test of the Lanston and Mergenthaler machines was not made and reports that the purchase of so large a number of Lanston machines was "improvident," and indicated "great partiality and bias on the part of the public printer." The commission regards the purchase as "mal-administration."

The report of the commission is columinous, containing about 16,000 words. Accompanying it is a memorandum by President Roosevelt, in which he approves the report except as to the disposition of the contract for the Lanston machines which he has directed shall stand.

Weather Probabilities.

For this section rain tonight· Tuesday fair, preceded by rain in early morning; fresh southerly, shifting to westerly winds.

Burnett's Saloon Raided.

Burnett's saloon, at the extreme western end of Duke street, was raided yesterday afternoon by Lieutenant Smith and Officers Smith, Patterson, Beach, Bell and Mayhugh. Twelve persons were captured and escorted through the streets to the station house, attracting considerable attention.

Policemen Bell and Mayhugh who had been watching the premises from the railway freight yards in the rear of the saloon, saw people entering and leaving the house. About 3 o'clock in the afternoon Lieut. Smith and Policemen Smith, Patterson and Beach drove up in front of the house in a closed carriage and the officers at the depot started toward the place and surrounded it. The officers entered the house and found a young man named Charles Glover behind the bar. In the room with Glover were five white men and six negroes. The white men gave their names as Edward L. O'Brien, Charles L. Thompson, Arthur Smith, George W. Gardner and Charles J. Carles, the last two being in the artillery service. The colored men were Walter Collins, Thomas Bryant, David White, William Harper and James Miles.

Richard C. Burnett, the owner of the saloon, is now serving a term in jail for selling liquor without a license, and the place is supposed to be in charge of his wife, Mrs. Maggie J. Burnett. The latter was not arrested, but a charge of selling liquor without a license was made against her, and she promised to appear for trial this morning. Glover was arrested on the same charge and released on his own recognizance. He was acting as bartender. The other prisoners were wanted as witnesses. The two soldiers were released on their own recognizance, but $10 collateral was required of the others for their appearance. Five of the witnesses succeeded in raising the required amounts and were released.

Mrs. Burnett and Glover were arraigned in the Police Court this morning on the charge of selling liquor on Sunday and without a license. The former testified that she was sick in bed and was not aware of what was going on in the saloon. Glover said he procured the keys without Mrs. Burnett's knowledge and sold no liquor, but had given away three bottles of beer. One witness, however, averred that he purchased liquor in the place yesterday.

The case was continued until next Wednesday morning.

The Revenue Office.

Mr. M. B. Harlow, President of the Business Men's League of this city, went to Washington today and had half an hour's interview with Commissioner of Internal Revenue Yerkes in regard to the attempt now being made to remove the office of internal revenue from Alexandria to Abingdon. Mr. Harlow in a succinct manner called attention to the many reasons, from a business point of view, why the office should remain where it is, pointing out the many advantages presented by Alexandria, among them its railroad communication, contiguity to Washington, etc. Mr. Harlow called special attention to the large amount of money recently spent upon the building in Alexandria, which has been enlarged and modernized, and told the commissioner that the supervising architect of the treasury had told him that the building had been metamorphosed into an up-to-date government structure. The apartment for the internal revenue service had been arranged on one floor, so that the collector had all his employees before him at all times. The commissioner admitted all that Mr. Harlow urged, but suggested that the United States Courts might desire more room. Mr. Harlow made a quick reply to this by saying that he had been told by those engaged in the work of remodelling the building that everything in connection with the requirements of the courts had been anticipated for ten years hence. Mr. Harlow earnestly besought the commissioner to consider the business pleas offered, and not be governed by political demands. The commissioner listened attentively to all Mr. Harlow said, and told him he intended to fully consider all the claims urged by Alexandrians for the continuance of the office in their city, and would render no decision in the matter for several days. It is understood that Senator Daniel has recently communicated with Commissioner Yerkes in regard to the location of the revenue office for this district in which he urged that Lynchburg be selected in case it was decided to remove it from Alexandria.

Envoys at Mount Vernon.

Mr. Witte and Baron Rosen, the Russian peace plenipotentiaries, accompanied by five members of the former's suite, spent Sunday in Washington. They arrived there at an early hour yesterday morning and spent the entire day visiting the historic points in and about the city. Shortly before noon the party boarded the naval tug Siren for Mount Vernon arriving at that place at 1 o'clock, and spent an hour and a half going through the mansion and about the grounds A feature of the stay there was the planting of a fine, healthy ash tree on a commanding site on the terrace in front of the mansion overlooking the water. Mr. Witte and Baron Rosen each handled the spade in filling the ground about the root of the tree after it had been planted, and the former asked that when it had attained growth some branches of it be sent to him for transplanting. It was through the courtesy of the ladies of the Mount Vernon Regents' Association that the buildings were open yesterday, and Mr. Witte asked that his thanks be sent to them. The trip from Mount Vernon to the National Cemetery, Arlington, was made in the palace car at Mount Vernon, formerly, the Palatine, which was in charge of Conductor Crockett, Motorman Young and Trolleyman Davis. The car attracted considerable attention as it passed through the streets of Alexan- the afternoon.

The Retail Clerk's Association will meet at 8 o'clock tomorrow night.

Rechabites.

Perservance Tent, No. 1098, Independent Order of Rechabites will hold their regular meeting tonight, at which time it is expected that at least 15 or 16 candidates will be initiated.

This order, which is composed of some representative citizens, is steadily forging ahead and bids fair to become one of the leading tents of this section.

A large delegation of the order from Purity, Onward and Victory Tents, of Washington, will be present to assist in the work of conferring the degrees of Temperance, Fortitude and Justice.

At the meeting last Monday evening Mr. Wilmer L. Griffin, Chief Ruler of Perseverance Tent, was elected representative to the High Tent, which will hold its annual session in Washington October 10. Mr. H. K. Henderson was selected alternate.

Mr. E. H. Barrett, who bears the distinction of being the oldest temperance man in the city, announced his intended removal to Spokane, Washington State, and his intention to organize a tent in the far West.

Mr. Simon D. Tennyson, Chief Ruler of Harmony Tent, of Washington, D. C., presided over the good of the order in his usual happy way.

High Tent Secretary Cordell was present and made some timely suggestions in regard to the continued interest as manifest in this city in the cause of temperance as exemplified by the Rechabite ritual.

Perseverance Tent is one of the youngest tents in existence, but its growth has been something phenomenal, having new acquisitions at every meeting. The "social" to have been given tonight has been postponed on account of other work of a more important nature. The officers of the tent for the ensuing term are as follows: P. C. R., C. M. Griffin, sr.; Chief Ruler, W. L. Griffin; Dep. Ruler, Mrs. J. H. Mansfield; Shepherd, L. D. Lyles; Levite, Jas. B. Hughes; Rec. Secy., E. L. Naylor; Fin. Secy., Frank Huffman; Treasurer. Capt. Jas. P. Wooddy; Inside Guard, H. K. Henderson; Outside Guard, W. H. Ward; R. S. to C. R., Mrs. J. B Hughes; L. S. to C. R., Mrs. Susie Griffin; R. S. to D. R., Mrs. Sarah Lyles; L. S. to D. R., Mrs. Lizzie Parker.

Andrew Jackson, colored, arrested by Officer Allen for vagrancy, was sent out of the city.

George King, colored, arrested by Officers Knight and Arrington charged with assaulting and cutting William Lewis, had his case continued.

Bertha Johnson, arrested by Officer Beach for disorderly conduct, was fined $2.20.

The Electric Railway.

Two new motor cars, built at the Brill shops in Philadelphia for the Washington, Alexandria and Mount Vernon Railway, have been shipped from Philadelphia and are expected to arrive at the power house at Four Mile run within the next day or two. The cars are exactly like the four new motor cars received about two months ago, which are now in service on the road. They complete the order for six new motor cars which the Brill Company was to build for the railway and gives it ample new equipment to maintain its new thirty-minute schedule between the two cities. The company is now meeting all the requirements of the tarveling public. The plans are being completed for the building of the new double track from Arlington Junction over the marsh at Alexander Island to the Virginia end of the Highway bridge. When this work is completed and the track in use it is stated that trains will run between Alexdria and Washington about ten minutes apart throughout the day.

Fine Residence.

The new residence of Mr. F. S. Harper, on the north side of Prince street, between Pitt and St. Asaph, is now nearing completion, and all who have entered and inspected it pronounce it perfect in every respect. Mr. Joseph F. Rodgers, the builder, has displayed his mechanical ingenuity in the structure, and nothing could be added to its beauty nor to the convenience and comfort of the interior arrangement.

Will Probated.

The will of the late Donald McLean was admitted to probate in the Corporation Court today. The deceased left his estate to his infant son, James Douglas McLean, and appointed Lewis H. Machen the executor of his will and guardian of his son.

The new male choir of St. Mary's Church yesterday sang for the first time high mass. The mass was celebrated by Rev. Father Cutler, and Rev. Father Devitt, of Georgetown University, preached the sermon, in which he alluded to the return of the church to the music which rightly belonged to it. The choir acquitted itself in a very creditable manner and the members, and Prof. Wells, the director, received much praise for their work. The choir will sing the vesper service in October. Mr. Ambrose A. Durkin, of Washington, sang the "Veni Creator" in a beautiful manner and Mr. Robert Wenzel's solo, "O Salutaris," was very fine.

[Judge C. E. Nicol presiding.]

Gatewood, of this city, yesterday performed an operation for appendicitis upon Gerald Jones, the young son of Dr. T. Marshall Jones, at his home on Prince street. They found the appendix perforated in two places, and a delay of a few hours would have resulted fatally. The young man is reported in a favorable condition today.

Accident at Depot.

Mr. Amos Entwisle had his left leg broken above the knee while at work in the Southern Railway machine shop in this city this morning. The accident was caused by the fall of a piston rod and head. The ambulance was summoned and the injured man was conveyed to the Alexandria Hospital, where the company's surgeon rendered the necessary aid.

Cutting Affray.

During a row among negroes in the northern part of the city yesterday afternoon George King cut Wm. Lewis on the left arm. He was attended by Dr. Hopkins. King was later arrested by Officers Knight and Arrington and this morning was arraigned in the Police Court. The case was continued in the absence of an important witnesses.

Yesterday.

Yesterday was an ideal fall Sunday. The temperature was pleasant, in marked contrast to that of the previous Sunday when "General Humidity" held sway and rendered conditions unpleasant. Many people were on the streets and there was an increase in church attendants.

Woman's Kidney Troubles

Lydia E. Pinkham's Vegetable Compound is Especially Successful in Curing This Fatal Disease.

Mrs. J. W. Lang and Mrs. S. Frake

Of all the diseases known, with which women are afflicted, kidney disease is the most fatal. In fact, unless early and correct treatment is applied, the weary patient seldom survives.

Being fully aware of this, Mrs. Pinkham, early in her career, gave exhaustive study to the subject, and in producing her great remedy for woman's ills—Lydia E. Pinkham's Vegetable Compound—was careful to see that it contained the correct combination of herbs which was sure to control that fatal disease, woman's kidney troubles. The Vegetable Compound acts in harmony with the laws that govern the entire female system, and while there are many so called remedies for kidney troubles, Lydia E. Pinkham's Vegetable Compound is the only one especially prepared for women, and thousands have been cured of serious kidney derangements by it. Derangements of the feminine organs quickly affect the kidneys, and when a woman has such symptoms as pain or weight in the loins, backache, bearing down pains, urine too frequent, scanty or high colored, producing scalding or burning, or deposits like brick dust in it; unusual thirst, swelling of hands and feet, swelling under the eyes or sharp pains in the back running down the inside of her groin, she may be sure her kidneys are affected and should lose no time in combating the disease with Lydia E. Pinkham's Vegetable Compound, the woman's remedy for woman's ills.

The following letters show how marvelously successful it is.

Mrs. Samuel Frake, of Prospect Plains, N. J., writes:

Dear Mrs. Pinkham:—

I cannot thank you enough for what Lydia E. Pinkham's Vegetable Compound has done for me. When I first wrote to you I had suffered for years with what the doctor called kidney trouble and congestion of the womb. My back ached dreadfully all the time, and I suffered so with that bearing-down feeling I could hardly walk across the room. I did not get any better, so decided to stop doctoring with my physician and take Lydia E. Pinkham's Vegetable Compound and I am thankful to say it has entirely cured me. I do all my own work, have no more backache and all the bad symptoms have disappeared.

I cannot praise your medicine enough, and would advise all women suffering with kidney trouble to try it.

Mrs. J. W. Lang, of 626 Third Avenue, New York, writes:

Dear Mrs. Pinkham:—

I have been a great sufferer with kidney trouble. My back ached all the time and I was discouraged. I heard that Lydia E. Pinkham's Vegetable Compound would cure kidney disease, and I began to take it; and it has cured me when everything else had failed. I have recommended it to lots of people and they all praise it very highly.

Mrs. Pinkham's Standing Invitation.

Women suffering from kidney trouble, or any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. Out of the great volume of experience which she has to draw from, it is more than likely she has the very knowledge that will help your case. Her advice is free and always helpful.

Odd Art Criticisms.

A young woman of great, perhaps too great, sensibility, according to the Dundee Advertiser, begged to be excused from visiting an aunt who lived in an old fashioned house where pictures of a certain period were in evidence. "There is an engraving of a blacksmith's shop in the dining room!" said she hysterically. "You can't expect me to eat my dinner there; I smell the hoofs."

A similar criticism came from one who suffered, not from overrefinement, but from something quite different. She was a woman of recently acquired wealth, who went into an art gallery and asked for a painting of a certain size. "I have just what you want," said the dealer. He showed her a beautiful animal painting, but she looked at it for a few minutes and then shook her head. "It won't do," she said; "I want this picture for my drawing room." "But it's a beautiful thing," ventured the dealer. "Not for a drawing room," announced the woman conclusively; "you couldn't have a cow in a drawing room."

Puzzles From the Greek.

If two are a few, why not three; if three, why not four, and by a gradually advancing increment of number why not 10,000 or any other number? Or, again, if the loss of a single hair does not make a man bald, why should the loss of two, of three, and so on, and inferentially the loss of all?

If, then, no addition or subtraction of a unit can transform a small number of wheat grains into a heap or a full head of hair into a bald head, how is it possible that either transition should ever be accomplished?

Take a grain of millet out of a bushel and let it fall on the ground, and it makes no noise. Take every grain in succession of 10,000, let the same happen, and no sound is heard. Then collect all the grains back into the bushel and pour it out, and the result is a great noise. How, asks Zeno, can 10,000 noiseless processes make one full of noise?

Trespassing.

According to the common law of England there can be no theft of things which form part of or are attached to the soil, and there is no statute or penalty against the gathering of wild flowers in a field or wood. Most people at some time or other have paused at the fearsome legend, "Trespassers Will Be Prosecuted," printed on the menacing board which lawyers have described as a "wooden liar," for, as a matter of fact, the mere walking across another man's field is no more a criminal offense than to walk along the highroad. If the trespasser does no actual damage there is no ground for prosecution, with any hope of obtaining more than merely nominal damages, and none but a born litigant would dream of taking action.—London Globe.

Frayed Cuffs.

Among the minor arts of life of which we have lately given some instances is one which is sadly neglected. It relates to the treatment of shirt cuffs that show the first protest against the laundry's handling. The laundress is cruel, but the man who pares his shirt cuffs with scissors heaps folly upon brutality. With the first touch of steel the cuff is ruined. Light a match and pass it round the frayed edges (do not burn your wrist). The cleansing fire will remove the dross and leave intact the pure gloss of the cuff. A cuff treated with fire will last laundry generations longer than the cuff treated with steel.—London Chronicle.

Working Up.

Elsie—Your Uncle Harry seems awful young to be a doctor. Willie—Yes, he ain't a real growed up doctor yet. I expect he's only 'tendin' to children yet, so' to get some practice.

Excuses don't pay back borrowed cash.—Louisville Herald.

No Unpleasant Effect.

If you ever took DeWitt's Little Early Risers for billiousness or constipation you know what pill pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. Sold by W. F. Creighton, & Co. 401 King street.

A Laxative Cough Syrup.

"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup whooping coughs, La Grippe, bronchitis, etc. Sold by W. F. Creighton & Co., 401 King street.

Cause of Insomnia.

Indigestion nearly always disturbs the sleep more or less and is often the cause of insomnia. Many cases have been permanently cured by Chamberlain's Stomach and Liver Tablets. For sale by Gibson & Timberman and W. F. Creighton & Co.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Texas, nearly met his Waterloo, from Liver and Kidney trouble. In a recent letter he says, "I was nearly dead, of these complaints, and, although I tried my family doctor, he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold, and guaranteed to cure Dyspepsia, Billiousness and Kidney Disease, by E. S. Leadbeater & Sons, druggists, at 50c a bottle.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.
